

BHAWANI SINGH

Software Engineer | Java Backend Developer

Jaipur, Rajasthan, India | 96105 61142 | rajputbhawani2813145@gmail.com | [linkedin.com/in/bhawanisingh-java](https://www.linkedin.com/in/bhawanisingh-java) | [BHAWANI-SINGH-CODE \(Bhawani Singh\)](#)

PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience building full-stack applications using Java, Spring Boot, and MySQL. Skilled in designing RESTful APIs, implementing authentication and role-based access control, and structuring clean, layered backend architectures. Experienced in integrating AI-driven features such as resume parsing and job matching into production-style applications. Strong foundation in data structures, algorithms, and problem solving, with 200+ problems solved on LeetCode and HackerRank.

TECHNICAL SKILLS

Languages: Java, Python, SQL, HTML, CSS

Backend & Frameworks: Spring Boot, Spring Data JPA, Spring Security, REST APIs, JWT Authentication

Databases: MySQL, JDBC, Database Design, PostgreSQL

Developer Tools: Git, GitHub, IntelliJ IDEA, Postman

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, RESTful API Design, Authentication & Authorization, Layered Architecture, Backend Developmentss

PROJECTS

CRM Automation System | *Java, Spring Boot, Spring Security, MySQL, REST APIs*

A full-stack CRM platform for managing leads, contacts, and sales pipelines with role-based access and automated follow-up workflows.

- Developed a full-stack CRM application using Java 17, Spring Boot, Spring Data JPA, and MySQL to manage the end-to-end lead lifecycle from inquiry to conversion.
- Architected a layered backend (Controller–Service–Repository) and built RESTful APIs for lead, contact, deal, and task management, improving maintainability and scalability.
- Implemented role-based authentication and authorization with Spring Security, along with lead status tracking, automated follow-up reminders, and email notifications.
- Built a responsive dashboard for real-time lead analytics, pipeline visibility, and team activity, while optimizing MySQL schema design and JPA queries for efficient CRM operations.

Tech Stack: *Java 17, Spring Boot, Spring Data JPA, Spring Security, MySQL, REST APIs, HTML, CSS, JavaScript*

AI Resume & Job Matching Platform | *Java, Spring Boot, JWT, MySQL, REST APIs*

An AI-integrated backend platform that parses resumes, scores them against job requirements, and matches candidates to relevant openings.

- Built a Spring Boot backend for an AI-powered resume analysis platform supporting resume upload, parsing, and structured candidate data extraction.
- Designed secure JWT-based authentication and REST APIs for candidate and recruiter workflows, ensuring protected access to resumes, profiles, and job data.
- Developed an ATS-style resume scoring engine and job-matching module that evaluates resumes against job descriptions using skill and keyword relevance.
- Structured the application into modular services for parsing, scoring, matching, and user management, with MySQL-backed storage and file-handling support for PDF/DOCX resumes.

Tech Stack: *Java, Spring Boot, Spring Security (JWT), MySQL, REST APIs, File Handling, Resume Parsing*

ACHIEVEMENTS & PROBLEM SOLVING

Competitive Programming | 2023 - Present

- Solved 200+ problems on LeetCode and HackerRank, focusing on Arrays, Linked Lists, Trees, Dynamic Programming, and Graph algorithms.
- Practicing Google-style coding problems consistently, building proficiency across core DSA topics relevant to technical interviews.

EDUCATION

Rajasthan Technical University | Kota, Rajasthan

Bachelor of Technology in Computer Science (B.Tech) | Sep 2023 - Aug 2027

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Discrete Mathematics

CERTIFICATIONS

- **Core Java** - 45-Day Training, **Lavya IT Training Institute, 2025**
- **Basic Python** - 30-Day Training, **GPC Solutions, 2024**

EXTRACURRICULAR ACTIVITIES

Head Coordinator - Garba Night (College Cultural Event)

- Led event coordination and managed a team of volunteers for planning, stage operations, and crowd management for a college cultural night with 100+ participants.

Head Coordinator - State-Level Inter-College Kabaddi Tournament

- Supervised end-to-end event execution including team coordination, document verification, ground setup, and crowd management, ensuring smooth conduct of matches.
